PAEDIATRIC HERMES

**Inaugural European
examination
in paediatric
respiratory medicine**

Harmonised Education in
Respiratory Medicine for
European Specialists

**Saturday, September 24, 2011
ERS Annual Congress, Amsterdam**

Good Reasons to sit the European Examination

Clinical focus

Questions are closely related to the real-life practice of paediatric respiratory medicine.

In-training assessment

Assessment of learning

Assess your learning as a trainee and know where you stand at your level. Use the examination as a driver for learning.

Self-assessment

Performance benchmark

Know where you stand against the European standards. Keep abreast of new developments in the field. Use the examination to verify and update your knowledge.

European Diploma

Proof of excellence

This shows your commitment to life-long learning.

Geographic Mobility

Even without legal recognition, this is known and recognised within the profession throughout Europe and the world.

Tangible recognition

Upon successful completion, the ERS will grant you the European Diploma in Respiratory Medicine and you will be part of the HERMES Diplomates Club reserved to successful candidates with enhanced networking possibilities.

HERMES

Note: In accordance with the EU principle of subsidiarity, this examination has no legal standing, since only national authorities can grant doctors the right to practice.

The first European examination in paediatric respiratory medicine will be on Saturday, September 24, 2011 during the Annual ERS Congress in Amsterdam, Netherlands

Characteristics of the examination:

- ◆ Knowledge-based
- ◆ 90 Multiple-Choice Questions
- ◆ English only
- ◆ Duration: 3 hours
- ◆ Blueprint based on the Paediatric HERMES syllabus published in 2009
- ◆ Reserved to ERS members only
- ◆ Examination fees:
 - European Diploma €350.–
 - In-Training Assessment €175.–
 - Self-Assessment €175.–
- ◆ Registration deadline: June 15, 2011
- ◆ More information, sample questions and online registration at: <http://hermes.ersnet.org>

European diploma: reserved to qualified physicians

In-training assessment: reserved to trainees who wish to assess their level of knowledge

Self-assessment: open to all medical practitioners who wish to test their knowledge against the gold standard

ERS
